COURSE INFORMATION

Course Description:

The Career Standards Benchmark data set is used to track students' attainment of the benchmarks in grade 5, 8, and 11. This collection directly impacts the calculation of the Career Standards Benchmark indicator on the Future Ready PA Index and is used in conjunction with other measures to identify schools in need of support.

The Career Standards Benchmark Module will provide an overview of the data and the reports that will help validate that data in PIMS and will also explain how it translates to the Future Ready PA Index. Any completed and passed PIMS Administrator Track is a prerequisite for this module.

Course Requirements:

Participants will need the following to successfully complete the track.
