COURSE INFORMATION

Course Description:

The Future Ready Comprehensive Planning Portal (FRCPP) was created to provide a consistent planning framework and collection tool for all Pennsylvania local education agencies (school districts, charter schools, area vocational schools/career and technical centers, Intermediate Units) and schools. This new model provides flexibility in the planning process based on individual community needs, is grounded in an outcomes-based approach focused on student achievement and encourages schools and districts to more effectively and efficiently plan and lead innovative school improvement practices. The core concepts are based on a simplistic logic model, one that any local education agency or school can effectively use for developing cohesive long-term goals and action plans, monitoring yearly progress, and providing transparency in communication with school personnel, state officials, parents and community.

This Module will provide details for updating Charter School Administrator roles in the FRCPP system. Any completed and passed PIMS Administrator Track is a prerequisite for this module.

Only open to employees of Charter Schools or IUs that support Charter School data submissions.
